To Jim Garrison from Harold Weisberg 3/17/68

Translator, etc.

Should you need help ink translations in interviewing witnesses, etc., early this morning I met a Jewish woman who was born in Morocco who is fluent in seven languages and who is very much your partisan. Because of the din in the bar, I did not get her name. However, she can be reached through Orest Pena, who introduced us. Her languages include French, Spanish, Arabic and Hebrew.

Should any writing need translation, she can and said she will do this nights, after she finishes her regular work.
